

Annual Statistical Bulletin 2014

First Edition Volume 1

FOREWORD

The Botswana non-bank financial institutions sector continues to develop in tune with the changing economic dynamics of the country. The sector, which includes the Capital Markets, Investment Institutions, Insurance, Pension and Lending industries witnessed growth in terms of the number of players, increase in investors and volume of savings and investments. The sector plays a critical role in macro- and socio – economic development of Botswana. Therefore sustainable growth and development of this sector is important in the long term interest of the country.

Prudential regulation and Business conduct supervision are key drivers in the maintenance of sustainable development and prosperity of the sector. This requires evaluation and analysis of historical data to influence policy decisions and strategic interventions by the regulatory authorities and Government. In that regard, availability and quality of data inputs for economic and market forecasting is of dire need. The contour of market regulation is constantly changing and regulatory research has to keep up with the developments in order to make informed policy decisions and regulations. It is in this vein that NBFIRA has in 2014 set up a Research Department to, inter alia, compile, analyze and publish information submitted through regulatory returns as well as findings of thematic surveys on the non-bank financial institutions sector.

Volume 1 of the inaugural Statistical Bulletin for 2014 is a first step towards dissemination of NBFIs sector information to the policy makers and the public at large. Since this is an initial attempt, the Authority confronted several constraints in the production of the document. In turn, all stakeholders are invited to provide feedback to the Authority in order to improve on the quality of content of future publications.

The Board, Management and staff of NBFIRA conveys its gratitude and appreciation to all stakeholders for their spontaneous support and co-operation during the data compilation process. These included various regulated NBFIs, Government Departments and other institutions and we thank them all for their support.

Finally, but not least, appreciation goes to all NBFIRA staff who in one way or the other made this major project successful.

Dr Hira Sadhak
Deputy CEO - Regulatory

FINANCIAL PERFORMANCE OVERVIEW

2. Financial Performance Overview

2.1. Overview of Financial Performance of the regulated NBFIs during the year ended December 31, 2013

a) Performance of NBFI Service Providers / Companies

- 2.1.1 Table 9 provides an overview of financial performance of regulated non-bank financial services sector (Companies) as end of December 2013 compared to the prior year. Pawnshops, Finance or Leasing companies will be required to submit annual returns going forward.
- 2.1.2 Total assets of the companies in the NBFI sector fell from P34.8 billion to P31.7 billion, representing an 8.7 percent contraction. This was largely attributed to a decline in assets held by Investment Institutions, coupled with a fall in Insurance and Micro Lending companies, which more than offset the growth in assets of Retirement Funds Administrators and Capital Market players. The leading categories in terms of asset size are the Insurance and Investment Institutions which together constitutes more than 85 percent of the NBFI sector total assets.
- 2.1.3 As at December 31, 2013, the gross income of the companies in the NBFI sector was P8.2 billion which represented a 17 percent increase over the prior year. All NBFIs recorded an increase in gross income with Investments Institutions leading the pack by registering 50.7 percent growth in revenues, followed by Capital Markets who registered a 35.7 percent increase.
- 2.1.4 During the review period the Retirements Fund Administrators were the only sector registering decreased profits before tax. The aggregate profits for the NBFI sector increased from P1.32 billion in 2012 to P1.54 billion in 2013. In absolute terms the highest profits were registered by Insurance companies followed by the Micro Lenders. However, companies in the Capital markets sector registered the highest growth rate of 79 percent increase in profits before tax over the corresponding period.

b) Performance of Assets under Management (AUM) during 2013 - (Investors' Funds)

- 2.1.5 As at December 31, 2013, overall Assets under Management (AUM) increased by 20.3 percent to P62.4 billion from P51.9 billion recorded in 2012. The proportion of Retirement/ Pension funds to the overall AUM increased to 93.7 percent in 2013 compared to 91.0 percent in the prior year.
- 2.1.6 Overall AUM relative to GDP at Market prices showed an increase from 45.7 percent in 2012 to 49.7 percent representing a 4 percent increase. The increase was largely due to a 23 percent growth in retirement funds under management during the corresponding period.
- 2.1.7 Non - Collective Investment Undertakings as a percent of GDP grew by 3.1 percent on a year –on year basis whereas CIU Assets relative to GDP registered an insignificant increase of 0.3 percent during the review period.

3.1.3 Medical Aid Funds and Medical Aid Fund Administrators

A. Overview of Medical Aid Funds

- 3.1.3.1** In terms of Section 2 of the NBFIRA Act CAP 46:08, Medical Aid Funds (“MAFs”) are subsumed under the definition of an insurer. As a result, MAFs are regulated NBFIs in accordance with the provisions of Section 49(2) of the NBFIRA Act.
- 3.1.3.2** In January 2012, a consultancy established that there was a need to draft a specific legal framework which introduces Rules and Regulations for MAFs in order to empower them to underwrite health insurance in accordance with Insurance Industry Act.
- 3.1.3.3** In the interim, MAFs are required to seek letters of exemption from licensing from the Regulatory Authority in order to conduct health insurance business in accordance with the statutes. The letters of exemptions are issued subject to fulfilment of minimum regulatory requirements including, inter alia, passing the fit and proper tests for key personnel, disclosure of involvement in any financial crime investigations over the past 10 years (domestic or international), compliance to select prudential rules for insurance companies and the submission of audited financial statements within four months following the end of the financial year.

Notes:

1. Figures for policy numbers of three entities have not submitted
2. Some entities issue multi-cover policies, hence the summation across classes of business is invalid as a policy may contain more than one cover (class of business) leading to double counting
3. The General Insurance Business figures for numbers of policies are representative of only 5 companies, as the rest are multi-policies often embedded in one product
